

## Introduction to Creating your own eCommerce Webstore

Have you dreamed of owning your own business? Do you want to set your own hours and be the boss? The dream can come true once you know how to run your own eCommerce business. You can work from your home and still have the time and flexibility to go to your kid's baseball games and dance recitals. The Webstore Professor series will help you set up an online eCommerce or eBay based business quickly.

You will learn how to find real wholesale dropshippers so you don't have to stock inventory. We teach you what to look for so you don't get scammed by the many middlemen who advertise on the web. These guys advertise as wholesalers but are really just taking your profits. It is very important to find real wholesale suppliers to make your business successful. It is also imperative that you find wholesalers that will work with small and home based businesses. You will learn how to find those wholesalers.

There are many scams out there. When you do an Internet search for "wholesale" or "dropship", you will find many sites who will "set you up" with a website and even stock it with products. They sell it as a "turn-key" operation. The only problem is that the only key being turned is to their bank account. You will pay a lot of money for your website and then they will even charge you more for the products than a true wholesaler. They are laughing all the way to bank while you wonder why you aren't making money.

We want to show you how to set up a business the right way. There is no get rich quick deal in real business. It takes hard work and time. Many people want to believe that they can get rich quick and fall for the scams. The reality is that you must build your business, step-by-step, slowly and carefully. We call it "get rich slow."
