

## eBay Webstore

### A New Way To Make Money With eBay

Believe it or not, you can build a whole webstore as an affiliate. Now if you don't know &ndash; an affiliate program enables you as an individual Internet entrepreneur to promote the products of a company in exchange for a commission on all sales that you refer. This means no inventory and no customer contact for you.

You are basically operating as an Internet middleman and connecting customers to particular products and companies through your own network of websites and marketing methods.

There are scripts available that will allow you to do this quickly and easily. When your customer sees something they like, they are taken to the advertiser's website to complete the purchase.

eBay's affiliate program is one of the best in the industry and is run by Commission Junction (also one of the most respected and trusted). When combined with a program called Build a Niche Store (BANS), it becomes a powerful machine designed to get you sales.

If we return to the eBay affiliate program, eBay actually invites you to promote all of the product listings in the eBay marketplace and in exchange for your efforts will pay you up to 75% of the revenue they make from each sale you refer plus up to \$35 for each new active eBay member you refer.

You can read about the [eBay.com](#) affiliate program here

What this means is that you can earn up to three quarters of eBay's revenue simply for connecting people to the products listed in the eBay marketplace.

Not only do you get to partner with the best branded marketplace in the world, you also get access to and control over ALL of the products listed in this marketplace. The eBay product inventory becomes YOUR product inventory and yet you do NOT have to stock items, deal with customers, organize shipping or process refunds.

You are no longer limited to selling only those products which you can buy and sell for a profit margin. You can choose ANY niche market and promote those eBay products relevant to your chosen niche outside of the eBay marketplace, funneling targeted traffic through to eBay and into your own affiliate commissions.

Golf clubs, sewing kits, laptops, dog collars, diamond rings, Florida real estate&hellip;

If you know eBay you know how BIG it is &ndash; there are NO limits.

At this point you might be thinking - well this sounds interesting but in reality is there any money in it? Well, here&rsquo;s the shocker &ndash; eBay's top affiliates make over 1 million dollars a month. That&rsquo;s right &ndash; 8 figures a year without stocking, selling or shipping a single thing!

Now eBay does provide some basic free tools to help you succeed as an eBay affiliate and build an affiliate business BUT it has been the development of a tool outside of eBay that has really opened this up as a legitimate business opportunity.

The tool, as I mentioned earlier, is called Build A Niche Store and what it enables you to do is build eBay affiliate websites targeted to any eBay niche you want. These act as the medium through which you funnel targeted visitors to eBay.

Here are a couple of examples:

Race Car eBay Affiliate Website

Golf eBay Affiliate Website

Toy and Video Game Store

As you can see, these are professional looking websites that contain all of those eBay products related to their target niche inside a searchable store format, each of which automatically contains your eBay affiliate id.

These stores then automatically update as new products are listed for sale and old listing expire from the eBay marketplace and the software has built in development features which enable you to create new store pages, add content to these pages, create content pages, modify your template etc etc.

Your store content is all search engine friendly which will provide the foundation for attracting targeted traffic from the search engines and you can then use the development features to attract more targeted visitors which will in turn mean more eBay affiliate commissions.

You also get free lifetime access to the member forum when you purchase the product.

Build A Niche Store comes with a step by step user manual which will walk even the most technically inexperienced through setting up their eBay affiliate website, 9 professional template layouts which can be customized (from inside your admin panel) to match your target niche, lifetime member forum access, comprehensive product support and possibly most importantly &ndash; an UNLIMITED domain license which means you can build as many of these niche websites as you want for the small one time fee.

Think about how many niches eBay caters to!

How big could your eBay affiliate business be?!

This product gets my full recommendation &ndash; check it out today&hellip;
