

Turnkey Webstore Solution for eBooks

Be your own boss with your own website business today! Webstore Professor can set you up with a Turnkey eCommerce webstore right now.

Webstore Professor can create your own product selling website, complete with sales copy and product. This is not an affiliate program. It is a fully turnkey Internet business with a choice of products with full reseller rights. That means that you own the product and keep 100 percent of each sale.

The websites come with sales copy, shopping cart system, Google ads, forums and more. The sites are fully hosted on our servers, making it truly turnkey for you.

Sales are made through your own shopping cart system. Upon purchase, your customer will be able to download your product(s) immediately. The payment flows directly into your PayPal account automatically. It also includes forums, embedded streaming video and visitor polls to make your business a destination and keep your customers coming back. The site uses RSS feeds to provide fresh article content automatically. The website comes complete with Newsletter capability.

Websites also has additional built in income opportunities - Google AdSense and Amazon Store (add your own IDs through Administrator Control Panel).

Websites come with an Administrator Control Panel that runs the entire site. You do not need to know HTML or any programming language to operate this website. All pages can be edited/added/deleted through word a processor like interface.

Meta tags are optimized for best search engine placement. They can also be easily changed through the Administrator Control Panel.

We provide discounted hosting for only \$6.99/month. This is a truly turnkey business opportunity. You do not need to know anything about html or servers. Your website will be ready for you to promote as soon as it is built.

Visit www.easypottytraining.info to see a an example site today.
